

We need volunteers!

Be a controller for the 2016 World Fly Fishing Championship!

A Controller is assigned to a competitor, measuring and recording the trout. It's an opportunity to watch and learn from the best fly fisherman in the world. This is a great way to watch the stealthy techniques of some world class fly fishermen.

Volunteers are provided daily lunch & water, event merchandise, and special discount forms from area shops and businesses. Volunteers can take advantage of the same lodging packages offered to our competitors.

Daily Assignments – There will be a sector judge at each venue to meet you in the morning at the parking area and direct you to your beat. The sector judge will have Controller Kits (score sheet, measuring tube, clip board, pens, and waterproof bag) and spare items for each of you.

Time Keeping – Please bring a watch or timekeeping device, as you are responsible for the start times and end times for your angler. Anglers get 30 minutes to review their beat, then 3 hours to fish. You are to provide time updates to the angler and a countdown to ending time.

Volunteer Positions as a Controller

The Eagle River – Wolcott

The Eagle River—Gypsum

Colorado River – Dotsero

Sylvan Lake – Eagle – Must Row a Drift Boat

The Blue River—near Kremmling
